THE **TRANSPORTATION TOMORROW** SURVEY

TRIP DIARY SURVEY DATA GUIDE VERSION 1.1

SEVENTH REPORT OF A SERIES

A survey conducted for:
the Regions of Durham, Halton, Hamilton-Wentworth, Peel and York;
Metropolitan Toronto, Ministry of Transportation,
GO Transit and the Toronto Transit Commission.

**TRIP DIARY SURVEY
DATA GUIDE
VERSION 1.1**

FORWARD

This document contains selected tabulations from the TRIP DIARY SURVEY conducted in the Winter/Spring of 1987. These tabulations are essentially raw data tabulations from the survey data files using household expansion factors.

The data is intended for use by technical personnel familiar with travel surveys and commonly used transportation planning terminology.

Due to small sample size which resulted in large expansion factors, a caution should be exercised when using this data at a micro level. That is, trip origins and destinations at the TARMS Zone level could be represented by a small number of observation to estimate the overall characteristics of those TARMS Zones.

For more detail on the Survey methodology and findings, please refer to "Trip Diary Survey Analysis" - January 1990.

TDS Version 1.1 Household File Tabulations

The following tabulations are "Number of Households" stratified by various categories. The "Frequencies" field figures are the actual number of records in the TDS Version 1.1 Household File. The "Expanded Frequencies" field figures are the expanded results. The statistical fields, "Percent, Valid Percent and Cum Percent" all refer to the figures represented in the "Expanded frequencies" field.

TDS Version 1.1 Person File Tabulations

The following tabulations are "Number of Persons" stratified by various categories. The "Frequencies" field figures are the actual number of records in the TDS Version 1.1 Person File. The "Expanded Frequencies" field figures are the expanded results. The statistical fields, "Percent, Valid Percent and Cum Percent" all refer to the figures represented in the "Expanded frequencies" field.

TDS Version 1.1 Trip File Tabulations

The following tabulations are "Number of Trips" stratified by various categories. The "Frequencies" field figures are the actual number of records in the TDS Version 1.1 Trip File. The "Expanded Frequencies" field figures are the expanded results. The statistical fields, "Percent, Valid Percent and Cum Percent" all refer to the figures represented in the "Expanded frequencies" field.
